Dear colleagues,

With the 08 Apr 26 edition of the KMJ, we have, at last, won over 1!

Rajakumari et al from Trichy present their analysis of 750 ERCPs!!!

With this, we break through the ceiling of 1!

Johnson reports from Trichy on 67 patients of Rattol poisoning!

After our Lupus Registry comes the launch of our GUCH (Grownup Congenital Heart Disease) and Heart Transplant Registry, with THREE patients, reported by Shirlin, Vignesh and Chandru, from Trichy. A FOURTH shall follow.

Elakia from Trichy presents THREE patients of Breast Cancer who achieved Pathological Complete Response.

FIVE Diagnostic CT Images are presented by Dr. Meenakshi.P. from Nellai.

Shirlin and Vignesh break the record by publishing FOUR case reports from Heart City in this issue.

That becomes FIVE when you add their report on GUCH!

15 more outstanding case reports follow, concluding with 'Neuroradiology Nugget' from Meena. N and Dr. Sriram.V from Radial Road.

Thus, KMJ clocks 24 publications in this issue!

Do read, and write for the KMJ
